

# AstroTee

## Winter Tees 'Driving' you mad?

### WE HAVE THE SOLUTION...

Artificial surfaces have improved greatly over the last decade and the latest 3rd generation carpets are common place in sports and leisure facilities across the country. These new synthetic carpets offer a wealth of advantages due to their true to life look and feel. Our AstroTee surface takes full advantage of these benefits allowing clubs to discretely install all weather tees to help protect the course and keep it playable.

Easy to  
install

Free  
Draining

Cost  
Effective

Great  
Aesthetics

**...TRACTION**

# THE SYSTEM

The long pile 60mm AstroTee is made from a 2 tone fibre which ensures both aesthetics and longevity. The extra depth of carpet not only helps with drainage but allows the use for conventional long tees to go with today's oversized drivers. However the AstroTee is just at home on a par 3 with the use of irons. As the fibre comes from a sports background traction as you expect is ideal and allows the use for dimpled or spiked footwear.

## INSTALLATION

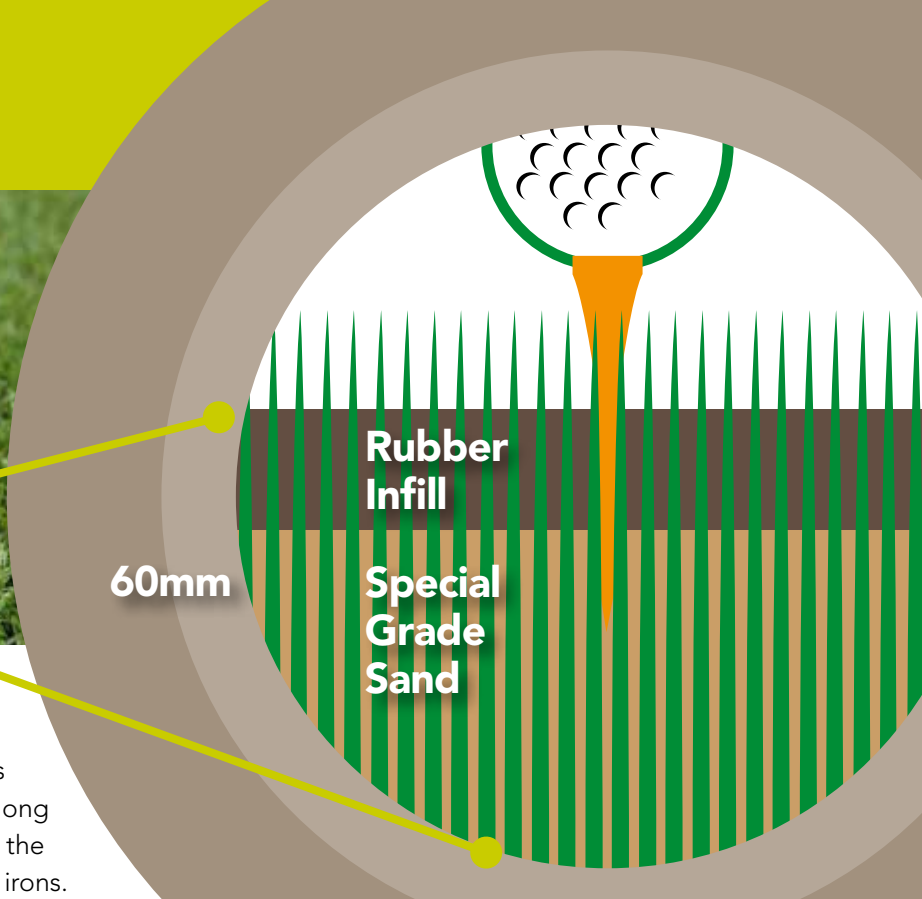

The free draining AstroTee is very easy to install. We supply everything you need in kit form. Firstly remove you existing turf and level the base with some sharp sand to remove any slight undulations. Then using the kit provided lay the weed membrane, followed by the AstroTee artificial carpet. Next majority fill the carpet with the specialist grade sand and top off with the with rubber granules. Your ready to play. A normal 2m x 2m area can be installed in less than an hour!

A full installation guide is provided. We can also offer onsite/training guidance on installation of your AstroTee or full supply and installation on request.

## KIT COST

Comprises of Carpet, Silica Sand, Rubber and Geotextile	
2m x 1m	£90.00
